

### REMARKS

Claims 24-31, 36, 37, 39-41 and 45-59 are in the application for consideration.

This application is filed in an abundance of caution to place certain references before the Examiner, and to acquire the Examiner's signature in initialing on a Form PTO-1449 which accompanies this filing in an Information Disclosure Statement. The IDS submitted herewith lists two U.S. Patent documents namely 2003/0034511 and 2003/0151080. Applicant previously submitted the 2003/0034511 equivalent document as evidenced by the Examiner's notation on Form PTO-1449 signed and initialed by the Examiner on August 19, 2003. However, the Examiner apparently in an oversight did not initial adjacent such reference indicating that such had been considered. It is respectfully requested that the Examiner do so on the accompanying Form PTO-1449. Further, it is respectfully requested that the Examiner consider and initial the newly submitted 2003/0151080 publication.

This application is believed to be in immediate condition for allowance and action to that end is requested.

Respectfully submitted,
